Diego Escalona
Full stack developer

Full Stack developer with 3 years of experience, working with technologies like **TypeScript**, **Next.js**, **React**, **Node.Js**, **Express** and **SQL**. I am passionate about programming and I am looking for new experiences to continue expanding my knowledge in this area. I am also proactive, autodidact and disciplined.

EXPERIENCE

Full stack Developer - Ávila Cash | Aug. 2023 - Present
- Frontend Developer responsible for the application's UI layer. I build dynamic and intuitive interfaces with React, modify the API developed in C#, manage parts of the SQL Server database, and oversee frontend production deployment.

Full stack Developer - Freelance | Feb. 2022 - Sept. 2023
- Development of personal projects with technologies like React, Node.js, JavaScript, MongoDB, HTML and CSS.

Front-end Developer - Freelance | Mar. 2021 - Sept. 2023
- Design, layout and web development for individual projects implementing JavaScript, HTML, CSS, Git and Figma.

Publisher Designer - Freelance | Oct. 2020 - Sept. 2023
- Creation and editing of videos for my YouTube channel and social networks.

PROJECTS

Pesccetti Software - https://laboratoriopescetti.com.ar/
- I developed administrative software for the renowned pharmacy Pescetti S.A. as a freelance project, solving an internal management issue. The company uses it daily, so I provide ongoing updates and continuous support.

Quiz Mental - https://quizmental.netlify.app/
- It is a trivial type game that consists of answering questions in a certain period of time. Created as my project for the Entrepreneurs Fair of my College. Obtaining the position for the best entrepreneurship of the fair.

API Pokémon JS - https://diego18-18.github.io/PokedexJs/
- It is a pokédex that allows you to search for existing Pokemon through the consumption of an API (POKEAPI). In order to demonstrate my knowledge consuming APIS with JavaScript.

Demo Farma - https://diego18-18.github.io/DemoFarma/
- Template designed and developed as a prototype to offer to pharmaceutical companies and other industries that wish to occupy a space on the Internet and increase their sales results.

Caballos.com - https://diego18-18.github.io/caballos.com/
- Web page designed as a proposal for a company dedicated to the marketing of horses and related products.
